Water Cooled Accessories

AquaCooler

NK-1 (right) 4 inch diameter flexible nozzles used on PWC10 and 12.
NK-2 (left) 6 inch diameter flexible nozzles used on PWC18, 24, 36.
NK-3 (center) 8 inch diameter flexible nozzles used on PWC60.

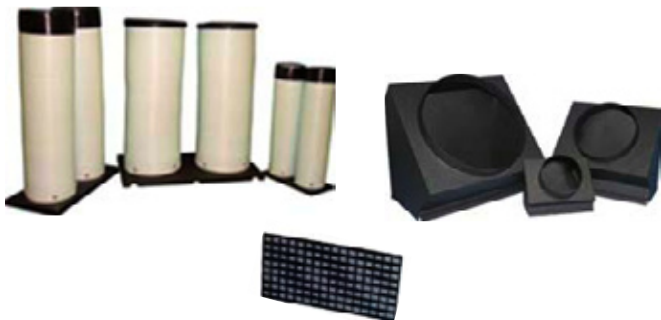

These same nozzles can be used on the PAC AirBoss air cooled units.
No need to duplicate inventory !

HK ... Hose Kit, used to supply water to and from condenser. The third line is for condensate removal. The hose kits are available in 10 ft., 25 ft. and 40 ft. lengths. A laundry tub faucet adapter is included.

DA Duct Adapter used to apply a single discharge duct to the evaporator.
PWC10, 12 transitions to 6 in. round and can handle 25 equivalent ft.
PWC18, 24, 36 transitions to 10 in. round and can handle 50 equivalent ft.
PWC60 uses 16 in. round and can handle 100 equivalent ft. of duct.

EP ... Evaporator Return Plenum attaches in place of the standard return air grille allowing a ducted return. Great for remote cooling of computer and equipment rooms. 10 in. round duct for the **PWC10, 12**. 12 in. round duct for the **PWC18, 24**. And 16 in. round duct for the **PWC36, 60**.

A side by side look comparing the duct adapter for a single duct run (right), to the nozzles with 2 discharge ducts (left). The grille (center) is standard equipment.
